Professional Summary

A results-driven Backend Developer with over 3 years of experience specializing in building and scaling resilient microservices for high-traffic environments. Proficient in Kotlin, Java, and the Spring Boot ecosystem, with deep expertise in applying Hexagonal Architecture, DDD, and TDD principles to create clean, maintainable code. I thrive in environments where I can collaborate within multidisciplinary teams, adapting to diverse work dynamics to solve complex problems. My objective is to add value by fostering growth and achieving impactful results, guided by my core values of honesty, respect, commitment, and positive attitude.

Work Experience

Backend Engineer | Adevinta | May 2022 - Present

- Engineered and maintained backend APIs for a distributed, event-driven microservices architecture, applying best practices in Test-Driven Development (TDD) and Domain-Driven Design (DDD).
- Utilized Kafka for asynchronous messaging and PostgreSQL as the primary database solution for data persistence.
- Deployments automated by CI/CD pipelines without PRE or DEV environments (push directly to production).
- Implemented comprehensive monitoring and logging for services using Datadog and Kibana to ensure system health and performance.
- Actively contributed within an Agile (Scrum) team, utilizing pair and mob programming to enhance code quality and knowledge sharing.

- Tech Stack: Spring Boot, Java, Kotlin, AWS, Kafka, PostgreSQL, GitHub Actions, Kubernetes, Datadog, Kibana.
-

Technical Skills

- Languages: Kotlin, Java, SQL
 - Frameworks & Libraries: Spring Boot, Spring Data, Spring Security
 - Architecture & Design: Hexagonal Architecture, Microservices, Domain-Driven Design (DDD), REST APIs, Test-Driven Development (TDD), SOLID
 - Databases: PostgreSQL, MySQL, MongoDB
 - DevOps & Cloud: AWS (EC2, EKS, ECR, S3, SQS), Docker, Kubernetes, Kafka, GitHub Actions
 - Methodologies: Agile, Scrum, Pair Programming, Mob Programming
-

Education

- Full-Stack Web Development Bootcamp (850 hours) | Factoria F5 | Barcelona, Spain | 2022
 - Degree in Civil Engineering | Córdoba National University | Córdoba, Argentina
-

Languages

- Spanish: Native
- English: Advanced (C1)
- Catalan: Basic
